Bob:

Latest intel indicates that the public meeting on the Wallace Yard EE/CA is going forward as planned on Nov. 1. I understand the meeting space in Wallace has already been booked. You and Craig are under no obligation to attend, of course, and I hope you'll have the good sense not to travel for this if you're not entirely ready.

In advance of the public meeting, I understand that the EE/CA is in publication this week and scheduled for distribution on Friday. I'll make sure that you and Craig receive hardcopies if interested. (b) (6)

Best of luck with all.

Cliff,

Thanks for your message. Craig and I are discussing, and I'm checking with my client. I'll get back to you shortly. (b) (6)

on  
November 1, the tentative public meeting date. Is that set in stone?

Bob

Bob/Craig:

In case you didn't get this proposed schedule forwarded from consultants already. I will definitely plan to attend the public meeting, and expect I'll see you there. If so, maybe we can set aside some time before or after to discuss activities after the action memo is finally signed.

Subject  
TENTATIVE Wallace Yard Public  
Notice period

Nick,  
Renee and I talked about moving forward with WY even though you weren't able to join us. We figured out a tentative schedule and do items for the Wallace Yard EE/CA Public Notice period and need your input. Here is what we've come up with:

Public Review Period: Oct 8 - Nov. 23.

This would allow people that missed announcements a chance to review the document. we could provide a brief verbal announcement at the Nov. 14 BC meeting.

Renee will final the press announcement and get to the newspapers so they run the first week of October.

Nick do you have other suggestions for how to advertise?

Renee plans to use the EPA and IDEQ logo on the announcement, fact sheet, post card. She's going to ask if you have any heartburn with

that.

Daryl- do the RRs want their logo on these notices? ==> it's a great PR op.

Public meeting date Thursday Nov. 1 (Tentative)

Daryl- We'd like to have the RR's participate at these meetings. ==> PR op.

Brandon/Aaron note these dates for deliverables and production.

Let's finalize this plan and figure out what we need to do to be a reality.
